

Brainstorm subjects for 2007 workshop

What did we miss?

General Comments

- **Timeline**
 - focus on the future of damage tolerance;
 - focus on existing problems (control surfaces aging, shelf life of aircraft)
- **Training**
 - Of engineers at a higher level
- **Research**
 - Test protocols
- **In Service Databases**
 - Types of damage/location/magnitudes
 - OEM keep record of “spare” data
 - Desire to share the data most closely associated with safety
 - Beyond the 21.3 (COSF)
